

Jeremy Sherr

VSU Congress 2019

15 & 16 November
Park Inn, Leuven, Belgium

Traduction française simultanée projetée sur écran

We are delighted to organise the 2019 VSU congress with Jeremy Sherr on November 15 & 16 in Leuven, Belgium.

Jeremy Sherr was born in South Africa and grew up in Israel. He graduated from the London homeopathic college while also completing a degree in Acupuncture.

His school Dynamis (www.dynamis.edu) is the longest running post-graduate homeopathy course in the world.

He is a highly cherished speaker in countries all over the world and the list of honorary degrees he received for his relentless contributions to homeopathy is extensive. He is the author of numerous journal articles and homeopathy textbooks and has proved over 30 new homeopathic remedies.

His latest books on the Noble gasses (Helium, Neon, Argon) are precious gems of almost superhuman beauty. The book on Krypton will be available 2019.

He is also the author of Q-Repertory, the repertory of Mental Qualities.

Jeremy has been working in Tanzania on his project Homeopathy for Health in Africa treating AIDS patients and re-searching the genus epidemicus.

We know Jeremy as a versatile speaker and outstanding homeopath and are looking forward to hearing his:

- Remarkably thorough and quick case analyses and case structure, with the use of Q-Repertory
- Practical philosophy and the art of case cracking
- Old remedies with new understanding
- New remedies from proving, noble gasses
- Africa/AIDS cases
